

Global Great Commission Network Volunteer Opportunities and Needs September 2020

The Global Great Commission Network exists to stimulate worldwide mission efforts that promote the making of disciples of every people in our generation. This person manages the online Discipleship Survey tool, including the implementation of various versions of the Discipleship Survey to be made available to different cultures and languages. This person corresponds with survey participants and seeks to guide them to online or other helpful resources in furthering discipleship training and practice, and in a broader sense seeks to locate and promote the application of discipleship resources in general.
